PREFACE

1995 ANTELOPE HUNTING AND HARVEST REPORT

Survey Approach

Resident and nonresident antelope license holders were randomly sampled from the 78 subpopulations of resident and nonresident antelope license holders in our license database. One subpopulation consisted of all antelope license holders who had purchased only a general "Multi-region Doe/Fawn Antelope" license and held no special antelope license. The other 77 subpopulations were antelope license holders who had drawn one of the 77 types of special antelope licenses, even if they also held one of the multi-region tags. Antelope hunting and harvest data were acquired via telephone for resident license holders and via a mail survey for nonresidents.

Definitions

NUMBER ISSUED.....The total number of licenses issued or the number of license holders when an individual could have two or more licenses of the specified type.
HUNTERS.....The number of hunters who hunted one or more days
HUNTER DAYS.....Sum of whole days or portions of days hunted
PERCENT SUCCESS.....The number of hunters who killed one or more antelope divided by the total number of hunters and multiplied by 100
LOWER.....Lower confidence limit at a level of confidence of 80 percent
POINT.....The estimated value
UPPER.....Upper confidence limit at a level of confidence of 80 percent
GEN MRDFA.....License holders of General "Multi-region Doe/Fawn Antelope" (GEN MRDFA) licenses valid in regions 4, 6 and 7 who did NOT hold any other type of antelope license
SP.....An abbreviation for special license
SP 700-00.....Special 700-00 region 7 multi-district either sex license holders.
SP 900-00.....Special 900-00 Multi-district archery only license holders
SPECIAL.....Used in regional or state summary pages to indicate total of all special licenses (excludes "GEN MRDFA")
UNKWN.....A symbol for unknown used to designate unknown sex
OTHER.....Hunting and harvest activity by hunters who, according to our records, held only licenses valid only in other hunting districts or regions
TOTAL HARVEST.....Estimated total kill for all age/sex classes

Explanations

The antelope hunting and harvest statistics are estimates made from a sample of 18,329 questionnaires representing about 37% of all 49,807 antelope license holders. Confidence-interval estimates are given for hunters, hunter days, and total harvest. Confidence intervals are

(CONTINUED)

given at the 80 percent confidence level, meaning that the actual value will be between the lower and upper limit in four out of five cases. The relative precision of the estimate increases with the size of the estimate. Regional estimates have greater relative precision than district estimates and the statewide estimates have the greatest relative precision. All estimates represented are rounded to the nearest whole number. It is for this reason that rows and columns do not always agree exactly with row or column totals given.

In recent years, the availability of an additional multi-regional license type, the unlimited, multi-region doe/fawn antelope (GEN MRDFA) license, valid in regions 4, 6 and 7, had an effect on the analysis methodology and interpretation of results for these regions. Most of the MRDFA licenses were purchased by sportsmen who already held one of the either sex antelope licenses issued through the drawing. Survey populations have thus been antelope license holders (a person who held one or more antelope licenses) rather than individual antelope license types. This was done so survey populations would be mutually-exclusive with respect to individual people to avoid duplication of hunters and hunter days estimates.

Prior to the license year 1994 report, the multi-regional doe/fawn (MRDFA) license holder population contained all doe/fawn license holders including those doe/fawn license holders who also held an either sex license for a specific district. These license holders were surveyed using the more general multi-district questionnaire. Kills made on the either sex license, if the hunter had one, were reported with this group. Since all survey populations are designed to be mutually-exclusive, any multi-district doe/fawn license holder who also had an either sex license for a specific district in region 4, 6 or 7 was removed from the survey population of district-specific either sex licenses. These people were then added to the multi-district doe/fawn population. For this reason, the "NUMBER ISSUED" column in the report for the either sex license types in regions 4, 6 and 7 included only those either sex license holders who did not have a multi-regional doe/fawn license; It did, however, include the license holders whose only additional tag was the district-specific doe/fawn license offered to successful either sex applicants.

Beginning with the 1994 analysis, survey populations were still defined to be mutually-exclusive groups of antelope license holders, but the multi-regional doe/fawn antelope (GEN MRDFA) population was defined to be those antelope license holders who held ONLY the GEN MRDFA antelope and no other antelope license. People who held one or more licenses of one of the other district-specific types of antelope licenses made up each of the other survey populations, even if they ALSO held one of the GEN MRDFA licenses. This change should not have any impact on the number of hunters, hunter days, or harvest estimates by hunting district; it only affects the way these estimates are classified by license type.

ADDENDUM

Bill Hoskins, the computer programmer/analyst for the annual Harvest Surveys analysis and reporting effort since 1985, tragically passed away on March 13, 1996. The license year 1995 Antelope Hunting and Harvest Report was generated using Bill's routines and procedures to the maximum extent possible. At the time of Bill's death, the hunter sample had already been drawn, the responses had been recorded, and had mostly been keyed into computer files. The hunter regulation "parameter" files, which define the number of special permits issued by district and type, had also been largely entered into a computer database. The breakdown of licenses and permits issued to residents and nonresidents by district and type were compiled using special license drawing and license master file counts.

Several quality control steps were taken to insure the validity of the antelope statistics. Survey response data were verified at entry. The license/permit parameters were checked against the final hunting regulations. At each run of the analysis and reporting routines, diagnostic summaries were generated which indicated invalid response records and summarized the sampled percent of the license/permits issued by hunting district and type. Those showing oversampling were flagged. Inconsistencies and/or irregularities revealed by these diagnostic reports pointed to errors in either the response or parameter files. The reports were reviewed by research and management biologists before printing.

GUIDE TO USING THE REGULATIONS

The regulations are organized into three main segments, which are color coded to help you find the information you seek more quickly. These segments and their coordinating colors are:

General Information - All segment color coded in green are designated to provide sportspersons with general information on license purchases and big game hunting rules and regulations. Also, answers to some of the most common questions asked by sportspersons, as well as Montana's sunrise and sunset tables, can be found under these green color-coded segments. In addition, the map segments under a green color bar will define regional administrative boundaries and help you to easily regional headquarters.

General Big Game Licenses and Season Dates - All segments color coded in gold are designed to provide sportspersons with detailed species-specific information for the type of license required to hunt: deer, elk, black bear and mountain lion. Also, each hunting district's general season and archery season opening and closing dates, as well as each hunting district's bag limits can be found under these gold color-coded segments.

Special License and Permit Drawings - All segments color coded in blue are designed to supply sportspersons with the information they will need to properly apply for all licenses and permits that are awarded through special drawings. The special drawings are for a limited quota of licenses and permits for deer, elk, antelope, moose, sheep and goat. Under these color-coded segments, sportspersons will also find specific information on season dates, tentative harvest quotas (tentative quotas are subject to change prior to the drawings) set by each hunting district and the sportsperson's reporting requirements after an animal is harvested.

By order of the Montana Fish, Wildlife and Parks Commission, the seasons, limits and regulations listed here in shall govern the 1995 deer, elk, black bear, antelope, moose, bighorn sheep, mountain goat and mountain lion hunting seasons. These regulations are valid March 1, 1995 through February 29, 1996, and were adopted by the Fish, Wildlife and Parks Commission on February 8, 1994.

All licenses/permits must be signed before they are valid. All licenses are non-refundable non-transferable. The 1995 license year runs March 1, 1995, through February 29, 1996.

General Regulations

Checking Stations
All sportspersons are required to stop as directed at all designated check stations on their way to and from hunting and fishing areas, even if there is no game or fish to be checked.

Closed Areas
- State Game Preserves and National Parks are closed to hunting of big game animals. For hunting privileges on Federal Wildlife Refuges, inquire at the local refuge office. Big game hunting privileges on Indian Reservations are limited to tribal members only.
- Wildlife Management Areas with big game winter range are closed to public entry from the day following the end of the general deer/elk season or December 1, whichever is later, to May 15 each year, as posted.

Clothing Color
- Any person hunting or accompanying a sportspersons as an outfitter or guide must wear a minimum of 400 square inches of hunter orange (fluorescent) material above the waist, visible at all times.
- The hunter orange requirement is not in effect during the special archery seasons, which are specifically listed in these regulations as: "ARCHERY ONLY." Bowhunters pursuing big game animals with bow and arrow must wear a minimum of 400 square inches of hunter orange (fluorescent) above the waist if firearm season is open in the hunting district and for the species you are pursuing.

Evidence of Sex Requirements
- It is illegal to possess or transport the carcass of any big game animal unless evidence of the animal's sex and species remains naturally attached to its carcass or a portion of the carcass.
- In most cases, the easiest way to meet this requirement is to leave the animal's head attached to the carcass. However, if the animal's head is removed, some other evidence of sex must remain **naturally attached** to the carcass or a portion of it.
- The following are considered lawful evidence of sex:

  - Horned or Antlered Game Animals: Male--head with the horns or antlers naturally attached, penis, testicles or scrotum. Female--head or udder (mammaries).
  - Bears and Mountain Lions: Male--testicles or bacculum. Female--vulva.
- Evidence of an animal's sex and species must be retained until the animal's meat is processed (cut and wrapped) or until a bear or mountain lion is checked by a department employee or delivered to a taxidermist.
- Sportspersons harvesting a big game animal, if required by a department employee, must physically return to the kill site for inspection and on demand show complete head.
- Adult (18 years age or older) bowhunters must show proof of NBEF Bowhunter Education Certificate or present any prior years bowhunting/archery stamp, tag, permit or license from any state or province to purchase a Montana bow and arrow license.
- Montana law adopted in 1993 requires members of the armed forces and their dependents taking advantage of the 30-day residency exception to present a Montana Hunter Education Certificate or similar certificate from any state or province when purchasing any Montana license.

Hunting Hours
Authorized hunting hours for the taking of big game animals begins one-half hour before sunrise and ends one-half hour after sunset each day of the hunting season. See official sunrise-sunset table on page 54 of these regulations.

Littering
A person convicted of littering while hunting, fishing or camping shall forfeit their license or privileges to hunt, fish or camp within Montana for a period of one year.

Marked Animals
It is legal to shoot big game animals that have radio collars, neck bands or markers, but markers and radio collars must be returned to the Department of Fish, Wildlife and Parks.

Motorized Vehicle Travel
A common question asked by a sportsperson is "May I drive off established roads and trails to retrieve game?" There is no standard answer. In all cases, when on private lands, sportspersons must first obtain permission from the private landowner. In the case of public lands, the answer varies. BLM public lands are open to motorized travel unless designated closed. On National Forest lands, restrictions to motorized travel are described on Travel Plan maps available at local U.S. Forest Service offices. On National Wildlife Refuges, all off-road travel is prohibited. For further information, contact the appropriate land governing agency. See page 5 for addresses and phone numbers.

Outfitters and Guides
- Outfitters and guides are licensed by the Montana Department of Commerce. For information verification or a complete listing of licensed outfitters and guides telephone the Department of Commerce at (406)444-3738.
- Any outfitter utilizing federal lands or lands not held in fee title by the outfitter must be licensed by the Department of Commerce.
- It is illegal to hire an outfitter not licensed by the Department of Commerce.

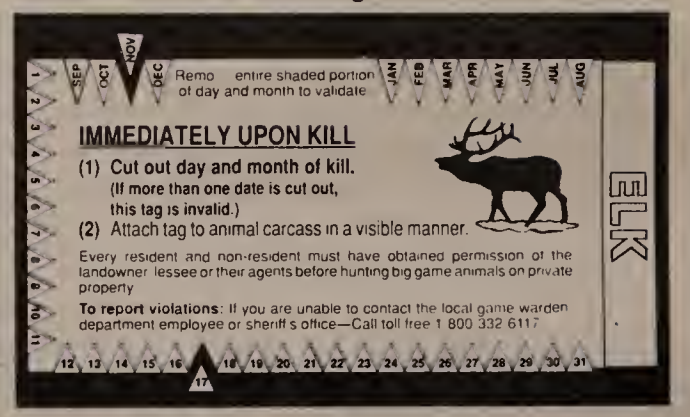
Property Laws
- **Permission to Hunt Big Game** -- Montana Law requires that big game hunters must have permission of the landowner, lessee or their agent before hunting big game animals on private property, regardless of whether the land is posted or not.

Traps--Do Not Disturb
Montana trappers are permitted to trap furbearing animals during designated seasons; predatory, and some non-game animals most of the year. Sportspersons afield who find a trap are prohibited from disturbing the traps or trapped animals.

Weed Free Hay Programs
- Certain areas of Montana require the use of certified weed free hay, straw and pellets for livestock to prevent the spread of noxious weeds.
- Please contact offices of the Montana Department of Fish, Wildlife and Parks, U.S. Forest Service, Bureau of Land Management and Montana Department of Agriculture for information about the area where you will be hunting.
- Please see page 52 if you are transporting horses or mules into Montana.

AVOID VIOLATIONS OF THE LAW
Immediately after killing a big game animal, all hunters must properly validate the appropriate license/tag and securely attach it to the animal so that it is clearly visible.

Proper validation is easy:
1) Locate the appropriate month and day the animal was killed and completely cut away (notch out) the month and day designations. The license/tag shown below, for example, has been properly validated for an animal taken on November 17.
2) **Be Carefull** The correct and appropriate month and day designations must be removed completely from the license/tag. Removing more than one month or one day designation invalidates the license/tag.



SEP OCT NOV DEC
Remo entire shaded portion of day and month to validate
JAN FEB MAR APR MAY JUN JUL AUG
IMMEDIATELY UPON KILL
(1) Cut out day and month of kill.
(If more than one date is cut out, this tag is invalid.)
(2) Attach tag to animal carcass in a visible manner.
Every resident and non-resident must have obtained permission of the landowner lessee or their agents before hunting big game animals on private property

ELK

- Sportspersons are prohibited from wasting or rendering unfit for human consumption, any part of a game animal, game bird, or game fish that is "defined as suitable for food." For big game animals excluding black bear and mountain lions, all of the four quarters above the hock, including loin and backstrap are considered suitable for food. A person responsible for the death of a black bear or mountain lion is prohibited from abandoning head or hide in the field.

Firearms

- **Caliber--** There is no caliber limitation during the general big game hunting season (except as specified under shotgun) for the taking of big game animals in Montana. However, the use of poisonous, explosive or deleterious substances on or in any bullet or projectile is prohibited. Match the caliber and firearm to the size of the animal hunted.
- **Shotgun--** Sportspersons are prohibited from shooting deer or elk with shotguns, except with loads of O buck, OO buck or rifle slugs.

Restrictions for traditional handgun/muzzleloader areas only:

- **Muzzleloader--** firearm must meet the following criteria: 1) not capable of being loaded from the breech of the barrel; 2) not loaded with any prepared paper or metallic cartridge; 3) charged with black powder, pyrodex or an equivalent; 4) is ignited by a percussion, flintlock, matchlock or wheellock mechanism; 5) must be minimum of .45 caliber; 6) no more than two barrels; and 7) lead projectile only, no sabots.
- **Handguns--** "traditional" handgun must meet the following criteria: 1) not capable of being shoulder mounted; 2) has a barrel of less than 10 1/2 inches; 3) chambers a straight wall cartridge, not originally developed for rifles.

Game Limits

No person may kill more than one big game animal of any one species in any one license year, unless otherwise specified.

Hunter Education--Firearm and Archery

- Youth under the age of 17 years applying for the 1995 special drawings must be at least 12 years of age before September 15, 1995, and provide required proof of successfully completing a Hunter Education Program at the time of applying for the special drawings.
- Resident sportspersons 12-17 years of age are required by law to have a Montana Hunter Education Certificate of Competency in the safe handling of firearms before they may purchase a hunting license. The Certificate of Competency is awarded to resident youths who have successfully completed Montana's Hunter Education Program.
- New residents of Montana 12-17 years of age need to check with their local Fish, Wildlife and Parks Office to determine if their out-of-state hunter education certificate can be accepted and to receive a Montana Hunter Education Certificate.
- Non-resident youths 12-17 years of age are required by law to submit a copy of their home state hunter education certificate verifying successful completion of the course when applying for any hunting license in Montana.
- Both resident and nonresident youths 12-17 years of age are required to purchase the bow and arrow stamp to archery hunt during the ARCHERY ONLY season, and must provide a Certificate of Competency in the safe handling of bow hunting tackle from the National Bowhunter Education Foundation (NBEF), in addition to the Certificate of Competency in the safe handling of firearms.
- **Obtain Permission Early --** Approximately 70 percent of Montana's hunting districts are comprised of private land. In some hunting districts, it is difficult to obtain access to private lands. Sportspersons should secure landowner permission before applying for a special license/permit in these areas.
- **Trespass--** Montana law states that lands can be closed to the public either by posting the land or through verbal communication by landowners or their agents. If permission is granted, the landowner may revoke permission by personal communication at any time. An orange post means **no** trespassing without permission.

  - Posting Requirements-- Notice denying entry to private land must consist of written notice on a post, structure or natural object or by painting a post, structure or natural object with at least 50 square inches of fluorescent orange paint. In the case of a metal fencepost, the entire post must be painted. This notice must be placed at each outer gate and all normal points of access to the property, as well as on both sides of a stream where it crosses an outer property boundary line. Sportspersons are reminded that they must have landowner permission before hunting big game animals on private property, regardless of whether the land is posted or not.

Tagging and Transporting Big Game

- **Tagging--** Immediately after harvesting a game animal, sportspersons must cut out the proper month and the day of the harvest from the appropriate license/tag and attach to the animal in a secure and visible manner. If more than one date is cut out, the license/tag is invalid. The properly validated license/tag shall remain with the meat until consumed (including cold storage). If quartered, the license/tag should remain with the carcass or largest portion of the carcass. The license/tag is to remain attached to the hide of a bear or mountain lion until it is tanned.
- **Transporting--** Properly tagged game animals that comply with the "Evidence of Sex Requirements" and that were lawfully taken by the license holder may be transported by an individual other than the license holder. The name, address and phone number of the person who killed the animal should accompany the carcass. It is a violation of the Federal Lacy Act to transport an illegally taken game animal across state boundaries. Federal Lacy Act violations could result in a criminal penalty of $20,000 and 5 years in prison. All shippers of fish, game or nongame birds, game animals, furbearing animals, the skins of furbearing animals or predator animals, or parts thereof are required to label all packages offered for shipment by parcel post, common carrier (airlines or UPS, etc) or otherwise. The label should be securely attached to the address of the package and shall plainly indicate the names and addresses of the consignor and consignee and the complete contents of the package (87-3-114, MCA).
- Sportspersons are prohibited from shooting or attempting to shoot a game animal from a motorized vehicle (car, truck, boat, snowmobile, motorcycle, all-terrain-vehicle, airplane, etc.) even if the vehicle is not moving.
- Sportspersons are prohibited from shooting or attempting to shoot a game animal on, from or across a public road or from the public right-of-way (shoulder, berm or barrow pit) along those highways.
- Sportspersons are prohibited from transferring their license to another person or using a license issued to another person.
- Sportspersons are prohibited from hunting or taking any game animal without having a valid license on their person.
- Sportspersons are prohibited from hunting or taking any game animal by the aid or with the use of any set gun, jacklight or other artificial light, trap, snare, or salt lick, nor may any such aforementioned device to entrap or entice game animals be used, made, or set.
- Youths under 14 years of age must be in the company of a parent, legal guardian or other responsible adult when carrying or using firearms for any reason.
- Sportspersons may possess, transport, sell, or purchase naturally shed antlers or the antlers with a skull or portion of a skull attached from a game animal that has died from natural causes and that has not been unlawfully or accidentally killed.
- A motorized vehicle or aircraft cannot be used to concentrate, drive, rally, stir-up, corral or harass game animals or furbearing animals.

RECREATIONAL USE OF STATE LAND

LICENSES & GENERAL INFORMATION

- Sportspersons may purchase one deer A and one or more deer B licenses. There are no requirement regarding the order of obtaining nor the order of filling either license.
- Sportspersons are limited to one deer A license per year, which is included in the resident's Sportsman License, the nonresident Big Game Combination License and the nonresident Deer Combination License.
- Nonresident Deer Combination License holders that are landowner sponsored are reminded the license entitles them to hunt deer and upland game birds only on the land owned by the landowner sponsor. This does not include leased or public land. The license is valid statewide for fishing. A general upland game bird license would be required to hunt statewide for upland game birds. The upland game bird license may be purchased at any Fish, Wildlife and Parks office or at most license agents throughout the state.
- Sportspersons may hold and fill more than one deer B license, subject to all specifications on the license issued. Opportunities to obtain a deer B license(s) include:

SPECIAL SEASONS & TENTATIVE QUOTAS

- Application must be postmarked by the U.S. Postal Service no later than June 1.
- Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.
- Nonresidents must hold a Big Game Combination License or a Deer Combination License to be eligible to apply for a special deer permit.
- Sportspersons must hold a deer A license to use a deer permit awarded through the special drawings.
- Holders of a landowner sponsored Deer Combination License may apply for a special deer permit only in the hunting district in which they are authorized to hunt deer.
- A special deer **permit** is not a second license. All permits are issued through the special license and permit drawings and must be used in conjunction with a valid deer A license. Hunting districts offering a deer permit are: 240-01, 291-01, 441-01, 455-01, 530-01, and 650. **Exception:** in hunting district 260-03, the deer permit **must** be used with a deer B license.
- Because some licenses and permits are valid only in a portion or portions of specified hunting districts, sportspersons should carefully note the district choice for which they are applying. A copy of the legal descriptions for "portion of district" areas is available at any Fish, Wildlife and Parks Office or by mail from the Helena Headquarters, Wildlife Division, P.O. Box 200701, Helena, MT 59620-0701.

LANDOWNER PREFERENCE

- Montana landowners who qualify may receive preference in the deer B license and/or deer permit special drawings. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. If the license is valid for a portion of the hunting district only, the landowner must own land within that portion. The land must be used primarily for agricultural purposes.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or employed ranch manager. Only one person may use or designate preference in a partnership or corporation.

Elk

SPECIAL SEASONS & TENTATIVE QUOTAS

- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- Both resident and nonresident sportspersons are eligible to apply for the following licenses and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.
- Residents and nonresidents are required to purchase a general elk license prior to applying for a special elk permit or the A-7 antlerless elk license.
- A sportsperson who receives a special permit to hunt antlerless elk during all or any portion of the regular season (Oct. 22 - Nov. 26) **is restricted to taking only an antlerless elk** in the district or the portion of a district for which the permit is valid (whether during the general or ARCHERY ONLY season). Permit holders are entitled to hunt elk, as specified in the 1995 big game hunting regulations, in all other elk hunting districts **OR** if your permit is valid for a portion of the district only, in all other portions of that hunting district (except those districts or portions of district restricted to "hunting by permit only").

  This restriction also applies if a permit is valid for only a portion of the regular season (for example, Oct. 22-Nov. 5 or Nov. 15 - Dec. 15).
- Because some licenses and permits are valid only in a portion or portions of specified hunting districts, sportspersons should carefully note the district choice for which they are applying. A copy of the legal descriptions for "portion of district" areas is available at FWP Regional Headquarters and by **mail** from the Helena Headquarters, Wildlife Division, P.O. Box 200701, Helena, MT 59620-0701

LANDOWNER PREFERENCE

- Montana landowners who qualify may receive preference in the elk permit and A-7 antlerless elk license special drawings. To qualify, the applicant must own or be contracting to purchase at least 640 acres of contiguous land used by elk or where elk are known to occur at anytime during the year. If the permit is valid for a portion of the hunting district only, the landowner must own land within that portion.
- Preference is available to resident and nonresident landowners and can be designated to a blood or marriage related individual or a person employed by the landowner. Only one person may use or designate preference in a partnership or corporation.

What is an A-7 License?

- An A-7 license is a special type of elk hunting license that allows the holder to shoot **only antlerless elk** in the district for which the license is valid. A-7 licenses are available in only a very limited number of areas and, in general, in areas where no other opportunities to harvest antlerless elk exist.
- If a sportsperson applies for and receives an A-7 license, these conditions apply:

  1) Sportspersons may not hold both a general elk license and a special A-7 license.

  2) The holder of an A-7 license must hunt **only** antlerless elk and must confine their elk hunting **only** to the hunting district for which their A-7 license is valid.

  3) They **may not** hunt elk (bull or antlerless) anywhere else in the state during the 1995 season.
- A-7 licenses are available only through the annual special drawings. Both residents and nonresidents may apply for these licenses. If successful in drawing an A-7 license, the sportsperson will be sent a letter of notice along with A-7 license purchasing information.
- The following districts offer A-7 antlerless elk licenses through the special drawings: 204, 240, 250, 261, 270, 282, 298, 311, 329, 520 and 843.

- Doe/Fawn - any antelope with horns less than four inches in length measured from the top of the skull.

Closure

Closure of the Fort Peck Reservation to big game hunting by nontribal members was lifted on Trust lands for 1995. The FW&P Commission adopted big game regulations to allow the taking of four (4) antelope subject to terms of a Cooperative Agreement between the Tribes and FW&P.

XXXXX - Continental Divide

SPECIAL SEASONS & TENTATIVE QUOTAS

- Moose licenses are awarded through special drawings.
- Applications must be postmarked by the U.S. Postal Service no later than May 1.
- Legislation states that an applicant who receives a moose license is not eligible to receive another license for moose for the next succeeding 7 years. For example, if you receive a moose license in 1993, you may not apply for another until 2001.
- License holders may legally take one moose subject to all specifications on the license issued.
- Sportspersons harvesting a moose must leave evidence of sex naturally attached to the carcass.
- There is no ARCHERY ONLY season for moose.

Legislation authorizes the Fish, Wildlife and Parks Commission to provide for the auction of a moose license each year. This license authorizes the sportspersons to take an antlered bull moose in any district of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the moose will not be counted against the district quota. This license holder may hunt only in areas open to moose hunting.

Definitions

- Antlered Bull - any moose having an antler or antlers of at least four inches in length measured from the top of the skull.
- Antlerless - a female or juvenile male with an antler or antlers less than four inches in length measured from the top of the skull.

Both resident and nonresident sportspersons are eligible to apply for the following license and permits awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a district quota.

- Nonresidents can apply only in the following districts: 100, 101, 102-01, 102-02, 103-01, 103-02, 104, 105, 106, 110-01, 110-02, 111-01, 111-02, 112-01, 122, 130, 140-01, 140-02, 141, 211-01, 211-02, 212-01, 212-02, 214-01, 214-02, 270, 301-01, 301-02, 308-01, 308-02, 309, 310-01, 310-02, 311, 312, 313, 314, 315-01, 315-02, 316-01, 316-02, 317-01, 317-02, 318-01, 318-02, 319-01, 319-02, 320, 321-01, 321-02, 322-01, 322-02, 323-01, 323-02, 323-03, 324-01, 324-02, 327-01, 334-03, 512-01, 512-02, 513-01, 850

LICENSES & GENERAL INFORMATION

There are two types of bighorn sheep licenses: Limited and Unlimited.

Limited Licenses - these license are awarded only through the special drawing and are designed to limit the number of sportspersons in a specific hunting district(s). Sportspersons may apply for one limited license area only and it must be their first and only district choice, with the exception of an adult ewe which may be listed as a second district choice.

- Legislation states that applicants who receive a limited either sex or legal ram license are not eligible to receive another sheep license for the next succeeding 7 years. For example, if you received one of the limited either sex or legal ram sheep license in 1993, you may not apply for another sheep license until 2001.

Unlimited Licenses - These licenses are awarded only through the special drawing process. The unlimited license area must be listed as the first and only choice.

General Information for Both Limited and Unlimited Licenses

- Applications must be postmarked by the U.S. Postal Service no later than May 1.
- Each bighorn sheep license is valid in the hunting district(s) and for the time period specified on the license.
- License holders may legally take one bighorn sheep, subject to all specifications on the license issued.
- A sportsperson harvesting a bighorn sheep must, if required by the department, physically return to the kill site for inspection and on demand show the complete head and cape intact.
- A sportsperson harvesting a bighorn sheep with a license valid for a "legal ram" must not alter the head and horns as to affect determination of legality.
- A sportsperson harvesting a bighorn ram must personally present the complete head and cape **intact** within 48 hours to any Fish, Wildlife and Parks office, game warden, or designated employee in the administrative region where the bighorn ram was taken. At that time, a transportation permit will be issued.
- Bighorn ram horns greater than one-half curl must be plugged or pinned at any Fish, Wildlife and Parks office within 10 days after harvest. A listing of designated personnel and phone numbers will be provided to all bighorn sheep license holders.
- There is no ARCHERY ONLY season for bighorn sheep.
- It is illegal to possess a sheep head picked up in the wild.
- Legislation authorizes the Fish, Wildlife and Parks Commission to provide for the auction of a bighorn sheep license each year. This license authorizes the sportsperson to take a "legal" or greater ram in any district of their choice. This license is not a part of the seasons proposed and if this license holder is successful, the sheep will not be counted against the district quota. The license holder may only hunt in areas open to hunting (i.e. if an unlimited area closes due to reaching the quota, the license holder may not hunt in that area).

JUDGING A "LEGAL RAM" (3/4 Curl)

When a straight line extending from the front base of the horn through any portion of the eye opening intercepts any portion of the horn, the ram is legal. If the horn is not long enough to be intercepted by the line, the ram is not legal.

Base of the horn shall be considered as the point where the horn meets the hairline of the head. See illustration to the right.

Determination of a legal ram should be made from a broadside view of the head.

Successful applicants for sheep should contact this department if they need the Montana Guide to Bighorn Sheep.

UNLIMITED LICENSES

- An unlimited bighorn sheep license must be purchased through the special drawing as your first and only district choice. Unlimited bighorn sheep licenses are available in districts 300, 301, 303, 500, 501.
- Licenses are nonrefundable and a sportsperson may not change the selected hunting district, even if a district closes before the sportspersons has participated in a hunt.
- Unlimited license districts with quotas sometimes close within a few days of the hunting season.
- Unlimited license hunting districts will close on a 48 hour notice. Some unlimited sheep hunting districts are assigned a harvest quota. When the quota is reached or approached (whether kill is by sportsperson or otherwise), the sheep season in that district will close. Any ram harvested by a sportsperson will be counted against the quota.
- Current harvest information may be obtained by calling the appropriate Fish, Wildlife and Parks Regional headquarters during normal business hours. See Regional Headquarters listings on page 5.
- The department makes an attempt, through news releases and back country contacts, to inform sportspersons of bighorn sheep closures. However, it is the sportspersons responsibility to be aware of season status.

Question & Answers

What can I do if I lose my license?

Duplicate licenses may be obtained from your local game warden or from a Fish, Wildlife and Parks office by filing an affidavit stating your original license is beyond recovery. Upon payment of the specified fee, you may be issued a duplicate. Duplicate licenses are issued at the time of application.

What are Montana's residency requirements?

"Resident" means any person who has been a legal resident in the State of Montana for six (6) consecutive months immediately prior to purchasing a license, **and** who does not use resident privileges in any other state or country. If unsure of your residency status, contact a regional FWP office or call the Enforcement Division at (406)444-2452.

What is the difference between a license and a permit?

Licenses and permits **are not the same.** A license affords the holder the opportunity to kill a game animal, as specified on the license. A permit, on the other hand, merely awards the holder special privileges. **A permit is not a second license.** All permits are issued through the annual special license and permit drawings and must be used in conjunction with a valid hunting license.

What is the difference between a deer A and a deer B license?

- The deer A license is valid for one deer during the general season and can be utilized in any deer hunting district in the state for the species and sex indicated for that hunting district under the general season regulations. There are some exceptions to this general statement and a sportsperson should check the regulations specific to the hunting district in which they wish to hunt.
- The deer B license is valid for one deer subject to restrictions of seasons, species, sex and hunting district(s). The deer B license is most often valid for antlerless deer. More than one deer B license per sportsperson may be available in some hunting districts.

May I hunt with a bow and arrow during rifle season?

Yes, but you must conform to the rifle season regulations. This includes wearing a minimum of 400 square inches of hunter orange (fluorescent) material above the waist.

What is the special drawings process?

In response to hunter requests for a longer notification period, the MOOSE, SHEEP & GOAT drawings will be held earlier. In order to do this, there will be two separate applications and two different deadlines. Please note the schedule below:

What are block management areas?

The block management program is a cooperative effort between private landowners, the Department of Fish, Wildlife and Parks and hunters to provide free hunting opportunities on private land. Since 1985, over 5 million acres of private and previously inaccessible public and state lands have been opened for hunting. There are Block Management Areas (BMA's) in all regions of the state with the majority of them in eastern Montana (Region 7).

The block management program is currently undergoing a review which may result in operational changes. Hunters interested in learning about block management opportunities for the 1995 hunting season should contact the regional offices which administer the area the hunt is planned. Specific information on areas enrolled for this year and specific hunting opportunities will not be available until September 1. For general information on the block management program, contact the Field Services Division at (406) 444-2602.

What archery equipment is legal to use during ARCHERY ONLY seasons?

- **Long Bow -** a bow of the Medieval English type with the limbs and handle one continuous piece. There is little or no curving in the limb when unstrung.
- **Recurve Bow -** a bow with laminations of wood and/or epoxy resin type material and curve forward at the limb tips.

Compound Bow - a bow using a combination of recurve and longbow limb design in which the limbs may be straight, short, laminated or epoxy type, but wider at the tips and adjustable for poundage. A type of eccentric wheels and cables assist in drawing the bow for the mechanical advantage that peak weight is reduced at full draw.

Crossbows - may not be used during ARCHERY ONLY seasons. They may be used during the rifle season only.
